Community HealthCorps Member Training

Prescription Name: History of the Community Health Center Movement

Date: 2009-2010

Training Format: Video

This video presentation will educate members to the history of the Community Health Center movement. This presentation will also help members understand the importance of community health centers and their role in the community.

History of the Health Center Movement Online! The National Library of Medicine has launched an exhibit on Global Health called "Against the Odds" that focuses in part on the Community Health Center movement. The exhibit, called "Community Health on Common Ground," features video footage and photos of Jack Geiger and Dr. Aaron Shirley. There is also a feature on the health center role during Hurricane Katrina, with photos from Coastal Family Health Center in Mississippi and EXCELth in New Orleans, with a quote from Mike Andry.
