The National Community HealthCorps Member Exit Survey

Community HealthCorps, the national service program of the National Association of Community Health Centers (NACHC), wants to learn about the national service experience of Community HealthCorps members. The information gathered will be used to learn about the member's perspective about impact, effectiveness and needed improvements of the Community HealthCorps program locally and nationally.

The web-based the National Community HealthCorps Member Exit Survey is very user friendly and available online through Survey Monkey.

Completion of the national survey is required, and a very important aspect of the exit process, whether:

- **Earning an education award or not; or**
- **Returning for another term of service.**

Responses will be confidential unless exiting members indicate otherwise for specific survey items. Please complete the online survey according to the deadline indicated by program coordinator.

Note: Cookies must be enabled on the computer. As needed, seek the assistance of the appropriate person as directed by the sponsoring organization if using their computer. If cookies are enabled, and you have problems accessing the web-based survey, immediately notify the program coordinator.

Before exiting Survey Monkey, print the "Thank You" page as verification of completion, and submit to the program coordinator for the files. If online access is impossible for specific members, program coordinators have the authority to approve use of the hard copy. Fax completed surveys to the national program office at 301-347-0459 or e-mail to sspottswood@nachc.com.

You can go back to previous pages in the survey and update existing responses until the survey is finished or until the survey has been exited. **After the exiting the survey, you will not be able to re-enter the same survey.**
